The Grabbit Fiberglass Telescoping Poles are great for running wires or cables through limited access areas and false ceilings. The tools include patented Z-tip wire "grabbers." The inner V of the Z-Tip has a double knife edge to grab the wire insulation without cutting the metal wire, while the outer V (without knife edge) pushes a wire loop. Handy snap-on light included, as well as a J-Tip for wire loops or metal fish tapes. Three sizes available: 10-ft., 12-ft. and 18-ft.
