## **New Qualified Products Lists (QPL) for Vault Doors and Map and Plan Containers**

A new Qualified Products List (QPL) for GSA approved vault doors has been released. This is QPL-AA-D-600-11, dated December 18, 2024. The only differences between this one and the one before it is that Will-Burt Company of Orrville, OH has been removed. They discontinued their GSA vault doors several years ago. There are updated addresses for International Vault and Brown Safe Manufacturing. There is also an updated address and updated name for Overly. Overly Manufacturing Company is now listed as Overly Door Company.

A new QPL for Map and Plan containers has also been released. QPL-AA-F-363-22, is also dated December 18, 2024. The difference on this one is the removal of Trusted Systems from the list. Trusted Systems never really made M&P containers. They make Information Processing System (IPS) security containers. IPS Containers were originally added to the Federal Specification for Map and PPlan containers in AA-F-00363C, Amendment 2 (June 17, 1992) as

a "Type III" M&P. But due to their special nature, they were removed from AA-F-363 and have been for many years approved under their own Federal Specification, AA-C-2786.

Links to pdf copies of the new QPLs can be found below.
